-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 October 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claim 12 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claim 12 recites "running a software analysis process" to determine the non-verbal communication", however the specification fails to disclose any software analysis process for determining non-verbal communication and the closest mention is only found in section [0012] of the specification. Additionally, the specification fails to provide any flowchart of any sort relating to any software to perform the claimed function. Therefore undue experimentation is required and the specification fails to meet the enablement requirement of 35 U.S.C. 112, first paragraph.

Applicant's remarks have been considered and are moot since argument by console cannot take the place of evidence.

3. Claims 1-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification fails to provide an adequate description of the claimed limitation as is now claimed in claim 12; specifically there is no description of any software process, any software for determining non-verbal communication and the closest mention is only found in section [0012] of the specification. Additionally, the specification fails to provide any flowchart of any sort relating to any software to perform the claimed function. Therefore, the specification fails to meet the written description requirement of 35 U.S.C. 112, first paragraph.

The specification fails to provide an adequate description of the claimed limitation as is now claimed in claims 1, 10, 15 and 16. The specification in sections [0078-0080] only in the broadest sense states that audio-visual information may be used, but fails to provide any details, specifics as to how to achieve the claimed function, i.e. how is the audio-visual information used to determine gesture, how to interpret the audio-visual information to become gestures, etc. Thus, the "claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention."

Dependent claims 2-9, 11-14, 16-20 are also rejected for the same reason since they are dependent on a rejected base claim and contain the same problem(s).

The specification does not provide support for claims 6-9, 11-12, 17, 21, in that the specification fails to disclose a single embodiment which includes both a device for a user to input gesture information and to determine gesture based on audio-visual information as is claimed.

4. Applicant's arguments with respect to claims 1-21 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wing F. Chan whose telephone number is 571-272-7493. The examiner can normally be reached on Monday to Friday from 9 AM to 6 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curtis Kuntz can be reached on 571-272-7499. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
